

**JAPANESE NEMATOLOGICAL SOCIETY –
EDITORIAL BOARD NOTICE TO
CONTRIBUTORS OF ENGLISH
MANUSCRIPTS**

Nematological Research is published by the Japanese Nematological Society.

This journal is primarily for the publication of original research on all aspects of nematology in the form of original articles, short communications, or research notes. Contributions in the form of reviews, miscellaneous notes, or announcements are also accepted for consideration. Routine surveys of germplasm collections for susceptibility to parasitic nematodes are acceptable if it can be demonstrated that the data make a unique contribution to the literature. No manuscript that has been published elsewhere will be accepted for publication. Before submission of a manuscript, the submitting author should ensure that all co-authors have consented to being included in the publication. The manuscript should not be submitted to any other journal while it is being considered for publication in Nematological Research.

SUBMISSION OF MANUSCRIPTS

Authorship:

Members of the Japanese Nematological Society may publish their articles in Nematological Research without charge. Non-members of the Society can be co-authors; however, in principle the first author must hold membership. Otherwise, non-members must **remit a nonrefundable fee of ¥4,000 per article upon submission** of their manuscript to the journal. Manuscripts by non-members will not be reviewed until receipt of the fee has been confirmed. Checks or money orders should be made payable to the following bank

account:

Japan Post Bank

Currency: USD

Intermediary Bank: Deutsche Bank Trust Company Americas NY

Intermediary Bank (SWIFT Code) : BIC BKTRUS33

Beneficiary Bank : Japan Post Bank

Branch: Head Office

Beneficiary Bank Address: 3-1, Otemachi 2-chome, Chiyoda-ku, Tokyo 100-8793, Japan

Beneficiary Bank BIC (SWIFT Code): JPPSJPJ1

Beneficiary Bank CHIPS UID: 427593

Payee Giro Account Number: 00170-6-610102

Name of Account Holder: Nihonsenchugakkai

Payee Address: 1 Hitsujigaoka, Toyohira-ku, Sapporo, Hokkaido 062-0045, JAPAN

Payee Telephone Number: +81-11-857-9247

Manuscript submission:

One copy of the complete manuscript should be submitted to the e-mail address of the editorial office as a Microsoft®Word or compatible document or PDF file, with all text, figure legends, tables, figures, and other material embedded in one file, according to the directions for manuscript preparation and example formats given in this notice.

Where to submit:

Nematological Research Editorial Office

E-mail address: editor@senchug.org

Manuscripts saved on CD-R or CD-RW can be mailed. Please inquire by e-mail (editor@senchug.org).

Review of Manuscripts:

Each manuscript will be reviewed by at least two reviewers and, upon the recommendation of the reviewers as well as the editorial board, accepted, returned for revision, or rejected. The revised complete manuscript should be sent to the e-mail address of the editor-in-chief and will be reviewed by the editorial board before being accepted.

Manuscript presentation:

Manuscripts should be written in English using a Ms-Word or compatible format. Pages should be formatted as A4 (210 × 297 mm) size, double spaced, 12 point font with 30 mm margins. Pages must be numbered sequentially. The first page should contain the title, author(s) name(s), footnote(s) giving institutional affiliation(s), first author's current address (if not the same), full address for correspondence, and e-mail address. The second page should contain the abstract (no more than 250 words), Nematol. Res. and key words (within five words). Key words should not include those appearing in the title. Begin the text on the third page. (Example formats for each type of manuscript are given below).

Original articles of six printed pages (about 25 manuscript pages) or less, and short communications and research notes of up to three printed pages (about 10 manuscript pages) are published without charge. Reviews should be eight printed pages or less plus references. One double-spaced typed page should contain *ca.* 225–250 words.

Nomenclature:

Species (*italic*) and author (*capital* and lower case). Example: *Aphelenchus avenae* Bastian.

Units:

km, m, cm, mm, μm , ha, a, m^2 , cm^2 , l or L, ml, μl , m^3 , cm^3 , kg, g, mg, μg , h, min, sec, M, mM, %, ppm,

etc.

Figures and Tables:

Each figure and table should be numbered (Fig. 1., Table 1. ----) and placed at the end of the manuscript following the literature cited section and the figure legends. Figures and tables should be prepared as Ms-Word, Excel, PowerPoint or compatible documents or as PDF files. Tables and figures should be presented one per page.

Figures of plotted graphs should have white backgrounds, with any grid lines or printing shown in black. Symbols used to identify points within a graph should be large enough that they will be easily distinguishable after reduction.

Figures of illustrations or drawings should be of professional quality, either drawn in black India ink on smooth-surface white paper or generated by high-resolution computer graphics. Lettering should be large enough (10-12 points) to take a reduction of 50 to 60%. Freehand, penciled, or typewritten lettering is not acceptable. All figures should be digitally photocopied by high quality laser scanning or digital photography and "copy/pasted" as TIFF or JPEG files (>400 dpi) onto the manuscript pages following the pages of figure legends.

Original illustrations (no larger than A3) can be mailed. Please inquire by e-mail (editor@senchug.org).

Cross-citing:

In the text, literature cited should be indicated by author(s) and year, dual authorship by the use of the names of both authors, and multiple authorship by the use of the first author name followed by "*et al.*" (Croll, 1970; Ueda and Kasai, 1993; Yamada *et al.*, 1972)

Literature cited:

Literature for all manuscripts including short

communications should be listed following any acknowledgements, in alphabetical, chronological order.

Croll, N. A. (1970) *The Behaviour of Nematodes*. Edward Arnold, London, 177 pp.

Ueda, Y. and Kasai, Y. (1993) Efficacy of mixing organisms in soybean nematode-inhabited soil. *Proceedings of Plant Protection Society* 40, 301–302. (in Japanese)

Veech, J. A. (1982) Plant resistance to nematodes. In: *Plant Parasitic Nematodes*. Vol. 3 (Zuckerman, B. M. and Rohde, R. A., eds.), Academic Press, New York, 377–403.

Yamada, E., Takamura, S. and Tezuka, H. (1972) On the occurrence of the potato cyst nematode, *Heterodera rostochiensis* Wollenweber in Hokkaido, Japan. *Japanese Journal of Nematology* 2, 12–15.

Names of journals should be written completely (e.g.: Nematological Research; Proceedings of Plant Protection Society).

Literature written in a language other than English should have (in ____ (that language)) or (in ____ with English summary) added at the end of the citation. Date received for publication by the editor will be written after the last literature citation.

PROOFS

Authors will be sent a galley proof but not the final version of the manuscript. Authors should retain a

copy of the final version of the manuscript to use for proofing the galley.

ADDITIONAL COSTS

Authors will be charged for redrawing of figure(s), printing of color figures, and printing of excess page(s) at a rate of ¥ 3,400 for each additional half page.

PDF FILE AND REPRINT

A PDF file of the article will be given without charge. Reprints will be provided with charge. Details about ordering reprints should be arranged after the acceptance of the manuscript.
